

**YOU'RE INVITED . . .
to the CT ACHMM CLEAN
HARBORS BRISTOL
FACILITY TOUR &
DINNER AT PAGLIACCI'S
RESTARAUNT**

WHEN: *Thursday, September 17, 2009*
TIME: *3:30 PM Clean Harbors - Bristol
Waste Mang. Demo & Facility Tour
5:30 PM Social - Pagliacci's Rest.
6:00 PM Dinner - Pagliacci s Rest.*

HIGHLIGHTS of the EVENING

◆ **DEMONSTRATION & TOUR:**

Clean Harbors, the leading provider of environmental services and hazardous waste disposal in North America, will demonstrate their online waste management system. Their Internet-based online services system provides customers with instant access to key records related to transactions, shipment tracking and waste profiles. Generators can monitor every aspect of their waste streams and maintain drum inventory with this system.

After the short demonstration, tour guides from Clean Harbors will explain the operation of the Bristol facility. Serving the Northeast, Mid-Atlantic and Central United States, the Bristol facility offers chemical treatment of inorganic based non-hazardous and characteristic hazardous wastes, and stabilization/fixation of sludge/solids intended for land disposal.

- ◆ **DINNER:** Cost: \$15.00 for members
\$25.00 for non-members

(Dinner (Menu 1 Attached) is partially subsidized by the Chapter, Bar Drinks not included. We will be using Menu 1 at the restaurant - dinner choices do not need to be made ahead of time.)

*Facility Located at 761 Middle St
Bristol, CT and restaurant located at
333 East Street (Route 10), Plainville*

**START EARNING YOUR
ANNUAL CMP'S NOW!**

This Chapter meeting contains technical presentations and will be recognized for professional development credit.

**Seating and tour limited to first 40 persons.
Forward your RSVP to ContactUs@ctachmm.org by
Thursday September 10 '09.**

Transportation & Disposal

Bristol, Connecticut Facility Facts

Serving the Northeast, Mid-Atlantic and Central United States, the Bristol facility offers chemical treatment of inorganic-based non-hazardous and characteristic hazardous wastes, and stabilization/fixation of sludge/solids intended for land disposal.

This facility accepts hazardous wastes and PCBs for storage, consolidation, and transfer to other company-owned facilities or off-site treatment and disposal facilities. The Bristol facility also dismantles scrap, surplus machines and computing equipment for removal of regulated materials and/or recovery of recyclable materials.

Permits

- U.S. EPA ID No. CTD000604488
- RCRA Part B Permit No. CTD000604488, Issued April 4, 1995
- CT Regulated Waste Permit No. DEP/HWM-017-069, Issued April 4, 1995
- U.S. EPA HWSA Permit No. CTD000604488, Issued May 6, 1988
- CT DEP Sewer Discharge Permit No. SP0000109, Issued October 29, 2001 (Treatment Effluent to City of Bristol Sewerage System)
- U.S. EPA TSCA Interim Status for Commercial PCB Storage Facility, Dated August 28, 1990
- Stormwater General Permit No. GSI000726, Issued August 23, 2002

Facility Description & General Information

Start-up Date: January 1981

Facility Size: 3.5 acres

Services Provided:

- Inorganic Aqueous Waste Treatment
 - Chemical Precipitation
 - Storage and Transfer of Waste Oils
 - Sludge Dewatering Fixation
 - Acid/Base Neutralization
- Stabilization
- Container Storage, Consolidation and Transfer

Typical Customers: electroplaters; metal working, electronic equipment, chemical, plastics and machinery manufacturers; medical facilities; laboratories; utilities; petroleum distribution; and government facilities.

Typical Waste Streams: electroplating baths, rinsewaters, and treatment sludge; corrosive acids; solid oxidizers; contaminated process wastewaters; inorganic cleaning solutions; oils; spent flammable solvents; organic and inorganic laboratory chemicals; paint residues; debris from toxic or reactive cleanups.

Authorized Waste Streams for Storage and Primary Treatment: ignitable; corrosive; reactive; toxicity characteristic wastes; and all F-, K-, P- and U- coded wastes.

Treatment, Storage and Disposal Capabilities

Aqueous Treatment

Bulk Storage/Treatment (12 tanks total): 103,000 gallons

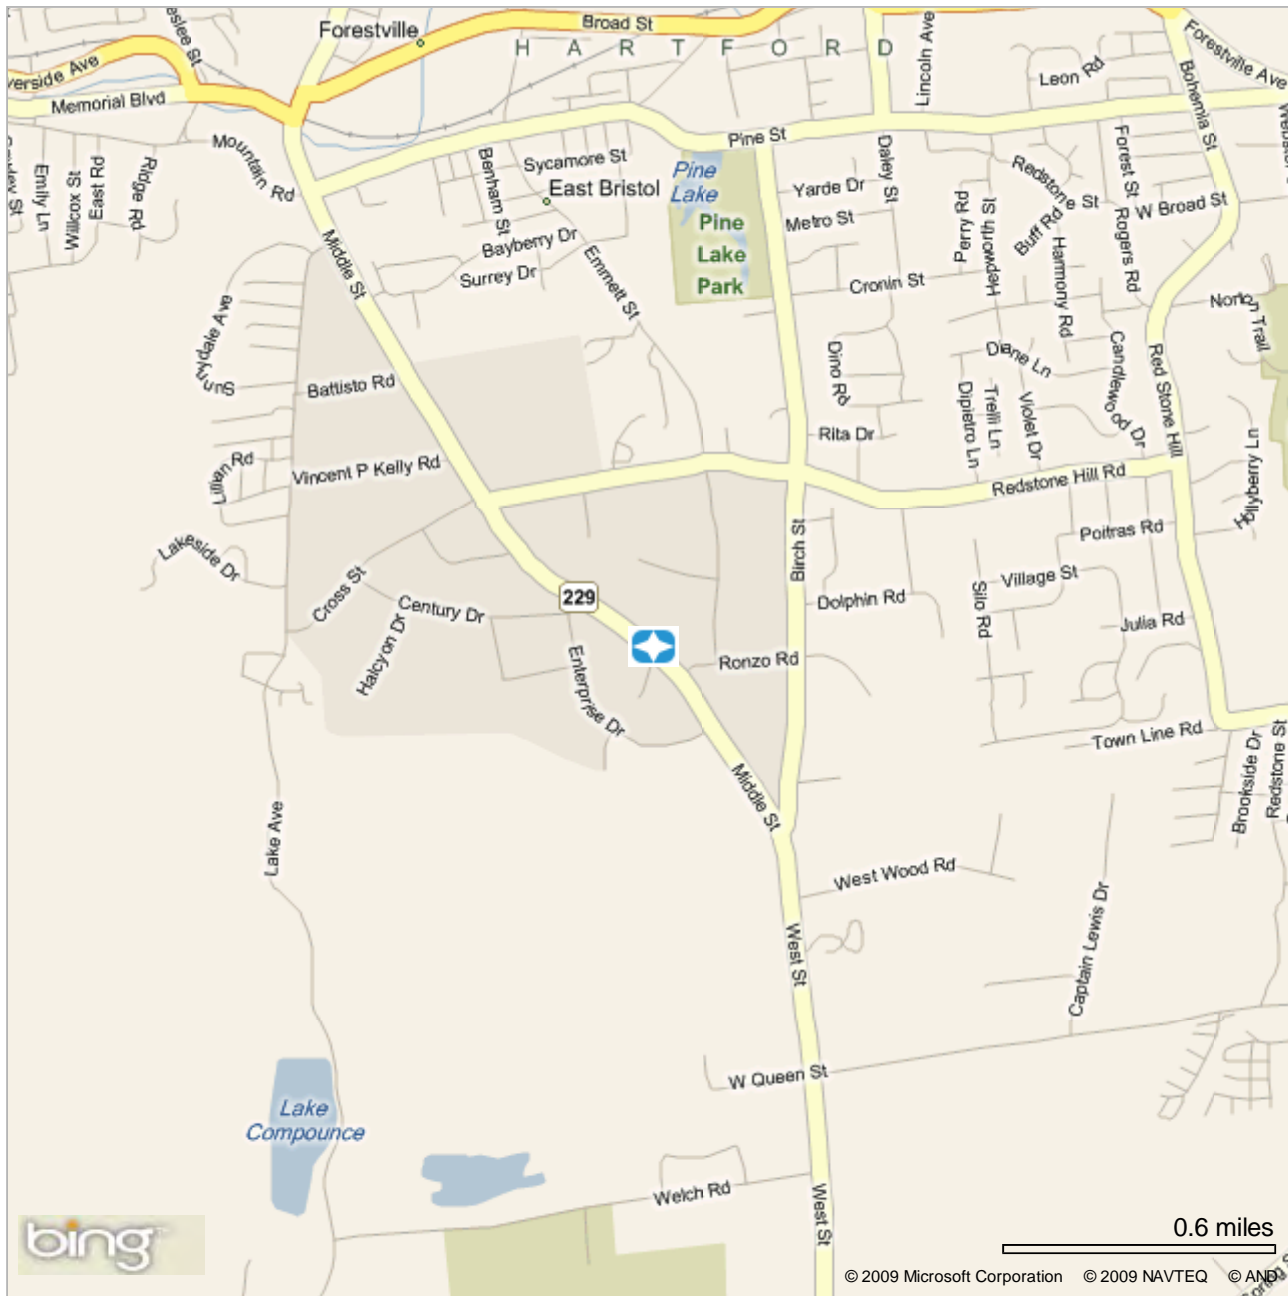

Warehouse Storage, Consolidation and Treatment/Transfer

10 Storage Bays (segregated for acids, alkalines, PCBs, solidification, oils, reactives, etc.): 1,000 55-gallon drums

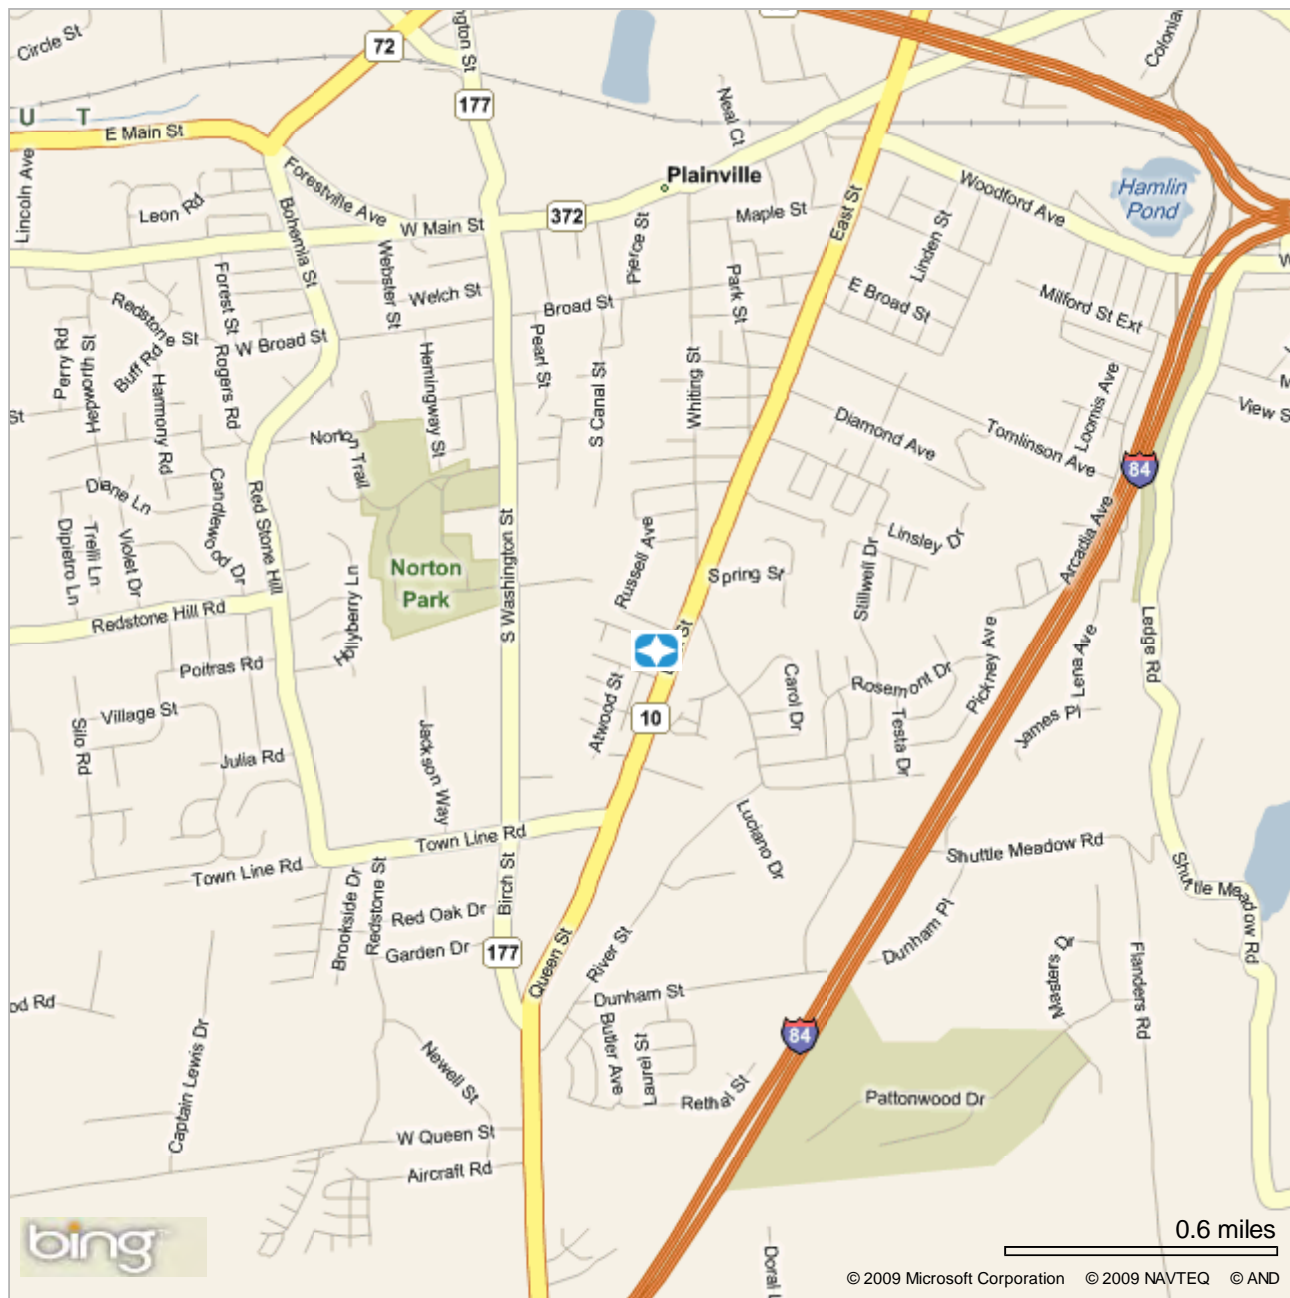

761 Middle St, Bristol, CT 06010-7442

333 East St, Plainville, CT 06062-3290
