**Deputy Chief,
Rhode Island Department of Health
Center for Emergency Preparedness & Response (CEPR)
Providence, RI**

The Rhode Island Department of Health, Center for Emergency Preparedness and Response (CEPR) is currently recruiting for a Deputy Chief. This position oversees all of the programmatic elements for the Public Health Emergency Preparedness (PHEP) and Hospital Preparedness (HPP) programs performed within the Center and directly manages an incredibly talented and dynamic staff.

Please find the posting here:
<http://agency.governmentjobs.com/rhodeisland/default.cfm?action=viewJob&jobID=1667963> (sadly, the classifications available to us are extremely limited and not always a perfect fit, so the job classification title is Chief of the Office of Special Projects and some elements are more applicable than others; the clearest position-related information is located in the Supplemental Information box). The link to apply is between the first two boxes on the posting's page.

Please share with any colleagues who may be interested.

Alysia Mihalakos, MPH
Chief
Center for Emergency Preparedness and Response (CEPR)
Rhode Island Department of Health
401-222-8035 (voice)
401-222-4612 (fax)
401-265-9632 (cell)

Environmental Engineer, Stafford, CT
TTM Technologies

Job description

The Environmental/Waste Water Treatment Plant (WWTP) Engineer will be involved with all aspects associated with WWTP processing, engineering, and to independently manage manufacturing projects with an environmental component to them.

Duties & Responsibilities:

- Oversee and coordinate projects including new start-up, upgrading existing processes and looking for more cost effective and efficient ways to run both facilities.
- Daily site inspections of the entire manufacturing facilities.
- Review Yokogawa daily and make any applicable adjustments to ensure it is capturing all necessary data. Coordinate annual PM by Yokogawa/Isocal.
- Work with production to be proactive with any design/process changes that will have an environmental impact.

- Help Oversee SWPPP inspections and sampling contractors to ensure both facilities are compliant.
- Help Conduct Monthly SWPP inspection in conjunction with the WWTP Sup and EHS Manager.
- Miscellaneous troubleshooting on an hour-to-hour basis throughout the day, as needed.
- Liaisons with some contractors that are on site for environmental purposes.
- Create and maintain an updated spare parts list for WWTP facilities.
- Overhaul and maintain O&Ms for both facilities. Test procedures to see that they are current and being followed.
- In conjunction with the EHS Manager and Supervisor schedule, generate agenda and discuss topics at monthly WWTP Ops Meeting.

Responsibilities include the reporting of all accidents, near misses and safety concerns. Perform job duties utilizing the required and appropriate personal protective equipment (PPE). Full participation in safety training and the ability to understand and follow the directions identified in Job Safety Analysis (JSA), PPE Assessments, Material Safety Data Sheets (MSDS) and all Safety Procedures and alerts.

Facilitates and attends meetings, communicates regularly with managers and supervisors, suggests and composes procedural changes, attends special training, maintains a clean, safe work environment and communicates to supervisors' safety hazards and issues.

Fill-in for vacations and call-ins as needed.

Essential Knowledge and Skills:

- Must possess good interpersonal, analytical, verbal and written communication skills.
- Must be able to multitask and lead by example.
- Good mathematical skills, good computer skills: Microsoft Office, Microsoft Outlook (email)
- Works up to 10 plus hours a day, 5 days a week, and is flexible to work on weekends and alternate shifts.
- Must be reliable and dependable. Must also be a fast learner.
- Reads and understands blue prints. Reads and understands specifications and procedures
- Has good reading vision, and is able to sit for up to 10 hours per day.

Education and Experience:

- Must have a high school diploma plus five years of WWTP experience and/or five years of qualifying experience in PCB manufacturing.

- Four Year Degree in Engineering strongly preferred. Chemical Engineering, Environmental Engineering or Environmental Science a plus.
