**Director of Scientific Affairs, Springfield, MA
Sterling-Hoffman Life Sciences**

Key Duties Include: A leading company in the pharmaceutical industry is currently seeking an accomplished and highly skilled Director of Scientific Affairs to take their team to new heights of success. The role will be challenging but also highly rewarding and this leader will be a key voice in the company. For the right executive, this is a fantastic opportunity with great growth prospects.

- Provide high quality and timely scientific services to internal and external customers
- Attend and present material at client/scientific meetings to support acquisition of new businesses

- Publish abstracts, manuscripts and books
- Represent and promote company's products and services at client meetings
- Review viability of proposed studies and provide advice on improving efficiencies
- Liaise with sponsors on study conduct and study progression as needed
- Provide scientific consulting services as required by clients
- Collaborate with scientific and regulatory consultants in providing drug development consulting services to clients
- Ensure that all established timelines relating to areas of responsibility are met
- Perform other duties as assigned

Qualifications And Desired Skills

- A university degree is required. Although all candidates are welcome and encouraged to apply, preference will be given to those with degrees in a relevant field
- Appropriate full-time work experience is mandatory (no students or fresh graduates please)
- Recent experience in the pharmaceutical industry is strongly preferred
- Preference will be given to candidates with recent experience in scientific affairs management

For the right leader, this is a wonderfully rewarding role with tremendous growth prospects. If you are qualified and think you're a strong fit for this role, please apply ASAP. We thank all applicants, but only candidates who meet our client's criteria will be contacted.

**Senior Wetland Scientist, Amherst, MA
SWCA Environmental Consultants**

New England Environmental (NEE), which is now part of the SWCA Environmental Consultants family, is expanding their team and looking for a Sr. Wetland Scientist who shares in the passion in delivering the highest-quality project work.

As a Professional Wetland Scientist you will be technical lead at our Amherst, Massachusetts office.

Areas of Responsibility:

- Completing wetland resource area delineations and functional assessments.

- Preparing wetland permits in accordance with State, Local, and Federal guidelines.
- Preparing reports and proposals, including figures.
- Managing project budgets and coordinating project work.
- Managing junior environmental staff and interns.
- Working well in both field and office environments.
- Education & Experience Requirements:

Requirements

- Bachelor’ degree in Wetland Science, Biology, Plant/Soil Science, Ecology or other related environmental science, Master’s degree preferred.
- Minimum of ten (10) years of experience working with Massachusetts Wetlands Protection Act Regulations.
- You must hold a certification as a Professional Wetland Scientist by the Society of Wetland Scientists.
- Registration as a wetland scientist by the State of New Hampshire, and/or qualifications of a soil scientist in the State of Connecticut, preferred.
- Demonstrated experience in project permitting, impact assessments, proposal preparation, environmental planning and wetland delineation/mitigation.
- Demonstrated experience with local, state and federal wetland permitting programs (CT, MA, NH, RI, VT, and ME).
- Demonstrated successful client relationships and experience working with subcontractors and regulatory agencies.
- Demonstrated success in new business development, preferred.
- Strong verbal and written communication skills, including the ability to produce high quality written reports and verbal presentations at hearings.
- Skills in MS Office, ARC GIS and GPS data collection.
- Ability to travel regionally (New England, New York, Mid-Atlantic).

SWCA Environmental Consultants is a growing employee-owned firm, providing a full-spectrum of environmental services. With offices across the United States, SWCA is one of the largest environmental compliance firms and ranks among Engineering News-Record’s Top 200 Environmental Firms.

If you would like to contact SWCA regarding the accessibility of our website or need assistance completing the online application process due to a disability, please email accommodations@swca.com

EOE - women, minorities, individuals with disabilities and veterans are encouraged to apply.
