Site Safety Manager, Windsor, CT
Amazon

Job Description

The Site Safety Manager will be responsible for partnering with a site operations team in a Fulfillment Center to execute company safety policies and ensure compliance to all applicable local and regional regulations. By leveraging lean principles and kaizens, this individual will lead continuous improvement initiatives to reduce conditional and ergonomic risk in our processes to ensure a safe and healthful working environment for our Associates. The Site Safety Manager must demonstrate the ability to build trust and confidence with the Operations Team and influence change through providing comprehensive risk assessments and safety data analysis.

The Site Safety Manager must be an effective communicator and send clear, concise and consistent messages, both verbally and in writing. This individual must instruct and train Operations Leaders in company safety policies and assist the operations site teams in incorporating our safety standards at their site. The Site Safety Manager will be required to identify best practices and incorporate these best practices into our standards to continuously improve company safety policies. The Site Safety Manager will be required to possess excellent safety program and relevant safety, environmental and ergonomic knowledge and demonstrates this expertise when working with Operations.

The Site Safety Manager will be responsible to lead a team of hourly safety team members: Safety Specialist, Safety Coordinators, Onsite first aid Associates. This individual must create and execute leadership development plans for their Safety Associates on their team. They must communicate safety team expectations and give frequent and appropriate feedback to their safety teams and ensure they are executing to the core competencies of an Amazon safety professional.

Safety Manager Responsibilities

- Possess a thorough understanding of local/regional regulations and company policy.
- Provide guidance and oversight to ensure compliance to all applicable Amazon Safety Policies.
- Measure sites' performance against published requirements in safety policies. For all deficiencies, identify a plan for the site to implement and fix all identified deficiencies.
- Deliver on-time and quality projects to Operations.
- Analyze safety metrics and review incident weekly and monthly incident trends to discover trends to justify the allocation of appropriate resources to areas where the safety risk is highest.

- Perform frequent site safety audits to identify all non-compliance equipment and/or processes at the site. Implement solutions to eliminate exposure to these risks and prevent injury at other FCs.
- Audit recordkeeping practices and Global Safety Database entries to ensure compliance to global safety standards and local regulations.
- Audit the workplace organization and Associate behaviors to ensure that training, auditing and scoring methods are accurate and consistent.
- Manage and mentor Safety Associates in your assigned FC.
- Spend time at the fulfillment centers and seek input from Safety teams, Associates and leaders on safety program improvement opportunities. Ensure open communication on status of progress and resolution against these suggestions.
- Ensure site leadership and Associates are trained and knowledgeable of their responsibilities under each policy. Audit the quality, delivery (including qualifications of the trainer), and effectiveness of all required safety training.

Amazon offers competitive packages including comprehensive health care, 401(k), stock based awards, growth potential, and a challenging and exciting work environment. Amazon is an Equal Opportunity-Affirmative Action Employer – Minority / Female / Disability / Veteran / Gender Identity / Sexual Orientation.

Basic Qualifications

- 3+ years of increasing responsibilities in safety and/or environmental programs in manufacturing, production, or service operations.
- Experience implementing lean principles and process improvement in an operational environment.
- Experience managing multiple direct reports.
- Bachelor's degree in safety, environmental, ergonomics or a related field required, or 2+ years Amazon work experience
- Must be flexible regarding shifts.
- Preferred Qualifications
- Distribution Center or Manufacturing Safety experience with mix of exempt and non-exempt employees at a site of at least 250 people preferred.
- Master's degree preferred
- Experience in a fast paced, changing/growing organization
- Certified Safety Professional preferred
- Excellent written and verbal communication skills, including comfort interfacing with site leaders.
- Ability to develop and implement department goals and strategies.
- Strong analytical skills with demonstrated problem solving ability.
- Ability to adapt well to fast-paced environments with changing circumstances, direction, and strategy

**Safety Specialist, Windsor, CT
Amazon**

Job Description

The Safety Specialist (SS) serves as a designated safety representative of assigned fulfillment center (FC), coordinating and implementing all areas of the Amazon Global Safety Program as directed by the Safety Leadership Team. You will influence behavior and inspire commitment on the part of all personnel in complying with Amazon safety standards and maintaining a safe work environment. This will include conducting training and coaching associates on observed work habits in support of this effort.

The SS is required to maintain accurate daily, weekly and monthly metrics to report to onsite management teams and corporate based reporting systems. You will support management's efforts to ensure compliance with all corporate Safety Program expectations and applicable federal and state law. You will conduct risk assessments related to jobs performed (Job Hazard Analysis) and new equipment introductions. Recommend appropriate risk mitigation measures to Management, including ergonomic considerations, in all such efforts.

Safety Specialist Responsibilities

- Identify and inform management of compliance issues, safety risks and improvement opportunities through the conduct of daily, weekly and monthly audits.
- Facilitate incident investigation process.
- Maintain required paperwork to comply with Amazon standards.
- Provide (or facilitate access to) immediate aid for associates, visitors, vendors, or guests that need assistance, or medical attention.
- Enter Safety Incident Information in Metrics database in a timely manner.

- Perform Safety Observations & Audits.
- Train and assist others (Area Managers, Safety Team Members, etc) to complete their Safety responsibilities (Audits, Follow Safety Rules, etc).
- Perform specific Safety Training as required by the Safety Manager.
- Essential Skills, Knowledge and Experience:
- Ability to communicate health and safety needs to all levels of the organization.
- Calm demeanor in emergency situations.

Basic Qualifications

- Experience with OSHA regulations specifically 29 CFR 1910
- High School diploma or equivalent
- Proficiency in Microsoft Office
- Able to maintain confidentiality in matters involving security and/or personnel issues.
- Experienced in emergency response and be able to maintain current First aid and CPR certificates
- Must be able to work flexible shifts which could include days, nights and/or weekends

Preferred Qualifications

- Bachelor's degree or higher, preferably in a safety related field.
- Strong communication, teamwork, analysis, judgment and customer focus skills
- Experience leading and managing a team
- Ability to analyze accident data, new processes, and machinery for potential safety concerns and conduct job hazard and job safety analyses
- Experience in Worker’s Compensation case management
- Analyzing and manipulating data
- Passion for safety

Amazon is an Equal Opportunity-Affirmative Action Employer – Minority / Female / Disability / Veteran /Gender Identity / Sexual Orientation.
