Fire Protection Engineer
City of Worcester
Worcester Fire Department

The Worcester Fire Department is seeking qualified candidates for the position of a Fire Protection Engineer. The successful candidate will perform professional plans review for conformance with applicable building, fire and life safety codes. The successful candidate will assist architects, engineers and contractors in the interpretation of proper construction, fire protection and compliance with state codes and related laws and regulations. The candidate will provide direction, notes and context for field inspectors to ensure compliance with the design plans, state and local regulations. The candidate will assist in resolving technical questions and disputes between the engineering and design professionals and the enforcement authority, which involves the interpretation of regulations, codes, standards, and laws. They will also work cooperatively with other permitting agencies within the city to meet the needs of developers and other stakeholders.

Preferred Knowledge of:

- M.G.L. Chapter 148
- MA Fire Code 527 CMR
- Relevant NFPA Codes, Standards and Guides
- MA Building Code 780 CMR
- Computer fire models and their limitations.
- Plans Review Process
- Building construction, materials and processes
- Fire suppression and detection systems
- Design and analysis of sprinkler/fire alarm systems
- Structural designs for life safety
- Sprinkler hydraulic design

Minimum Education and Experience:

- Bachelor's degree in an engineering discipline related to fire protection engineering from an ABET accredited institution.
- Possession of an Engineer in Training (EIT) Certificate and be able to seek and obtain licensure as a Registered Fire Protection Engineer (PE).
- Demonstrated ability to provide excellent customer service.

Highly Desirable

- Master's degree in fire protection engineering from an ABET Accredited institution.
- Licensure as a Registered Fire Protection Engineer (PE).

Salary Range: \$66,100 - \$86,762 per year, with an excellent benefits package.

To apply, please visit: www.worcesterma.gov/employment or send resume and cover letter to Human Resources Department, Room 109, 455 Main Street, Worcester, MA 01608 by Friday, July 28, 2017.

The City of Worcester is an equal opportunity, affirmative action employer. Women, minorities, people with disabilities and protected veterans are encouraged to apply. Preference is given to Worcester residents.

**Environmental Health and Safety Specialist, Shrewsbury, MA
Charles River Laboratories**

BASIC SUMMARY: Responsible for managing the Environmental, Health & Safety (EH&S) Program for adherence to local, state, and federal regulations.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Establish, administer and update specific EH&S programs for compliance with state and federal Occupational Safety and Health Administration (OSHA), Environmental Protection Agency (EPA), Department of Transportation (DOT) and other regulations as necessary. Manage OSHA and EPA records and maintain reporting and documentation standards.
- Provide initial and periodic safety and environmental training to all employees as required and advise management on safety and environmental issues. Review new regulatory standards and make compliance recommendations.
- Inspect the facility for compliance with OSHA and EPA regulations as applicable. Recommend solutions to management that address deficiencies in EH&S compliance. Submit work orders for facility corrective action on EH&S concerns.
- Assist in the development of EH&S programs and metrics.
- Manage the hazardous waste (RCRA) and medical waste disposal function including waste profiling, permitting, manifesting, and record keeping and reporting.
- Assist management team in emergency response and function as EH&S Emergency Coordinator for 24-hour incident response.
- Serve as Chairperson of the Safety Committee. Assist in the investigation of injuries resulting in lost time claims and/or safety violations and property damage. Make recommendations for corrective action. Provide regulatory guidance on EH&S issues to all staff.
- Available to clients and federal and state investigators to explain procedures and produce written documentation as proof of compliance.
- Request and maintain necessary facility permits, licenses and compliance reports to federal, local and state regulatory authorities.
- Obtain necessary licenses to function as wastewater and underground storage tank operator.

- Coordinate communications to regulatory agencies and client inspections on EH&S related matters.
- May assist in development of departmental budget.
- As required, oversee maintenance of group training manual and training records.
- Support the policy of equal employment opportunity through affirmative action in personnel actions.
- Ensure adherence to pertinent regulatory requirements and to departmental policies, practices and procedures [SOPs, safety procedures and biosafety protocols].
- Perform all other related duties as assigned.

Qualifications

- Education: Bachelor’s degree (B.A./B.S.) or equivalent in Environmental Science, Environmental Engineering or related discipline.
- Experience: Five or more years related experience in Environmental Health & Safety.
- An equivalent combination of education and experience may be accepted as a satisfactory substitute for the specific education and experience listed above.
- Certification/Licensure: None.
- Other: Ability to interpret federal and state regulation and apply them to address compliance solutions as required. Effective writing, organizational and time management skills. Computer skills including MS Office and database management.
