Duracell**

The site IH&S Coordinator will be responsible for maintaining positive working relationships with their customers (both inside and outside the site), supporting sound management programs (to include work plans, tracking mechanisms, and reports), and providing health and safety training for employees and managers in all relevant environmental laws, rules and regulations. The intent of the site IH&S role is to maintain various IH&S Key Element systems, lead safety initiatives, and assist site in obtaining and sustaining HSE key element results.

Site Description: Bethel, CT is the North America Headquarters & Global Innovation Center for The Duracell Company. This 320,000+ square foot facility, positioned on a 44 acre site, is the main hub for the multi-functional leadership team, as well as a state of the art research center and operates on a single day-shift schedule.

**PRINCIPAL DUTIES AND RESPONSIBILITIES**

Implement various safety systems through understanding of the federal, state & local laws for the system and effectively managing the system implementation throughout the facility. Work with other System Coordinators to achieve capable systems.

Responsible for implementation and coordination of all safety improvements for the site.

Resource to leadership, system owners, including providing coaching and technical research to employees and managers.

Perform safety walkthroughs, and respond to ongoing safety questions.

Conduct Industrial Hygiene & Noise monitoring for the site.

Conduct IH&S training for the site.

Provide feedback, coaching, and recognition on an ongoing basis across the facility.

Coordinate and maintain the site Behavior Culture program. Incident investigation results and analysis.

Responsible for the Site HS&E tracking systems

Coordinate safety and environmental audits and actions to remedy faults and remediate.

Help promote environmental health and safety awareness through internal company memoranda, newsletters and specific training programs.

**QUALIFICATIONS**

Minimum 2 years with Health & Safety experience in chemical, pharmaceutical and/or industrial laboratories.

BS degree in a Natural Science or Engineering preferred (Chemistry, Biology, Physics, Civil Engineering, etc.).

CIH, CSP, or CHMM certification is a Plus

Has knowledge or is willing to learn regulatory requirements that apply to the facility (OSHA, EPA, NFPA, CT DEEP, etc.)

Successful in working across organizational boundaries (i.e. departments in site) to resolve issues and move people toward a goal.

Effective oral & written communications. Must be able to effectively communicate with all levels of site personnel, vendors, contract workers, and regulatory agencies.

The ability to take the initiative, recognize problems, find the root cause through a logical process and implement change to correct the situation.

Ability to generate and execute a plan.

Effective and timely decision-making skills.

Effective trainer of employees and managers in all relevant EH&S laws, rules, and regulations

Effective use of resources with minimum supervision.

Working knowledge in computers including word, excel and power point. Has the ability to enter data into existing programs. Some understanding of database systems and initial understanding of the use of spreadsheets. May involve working with calculations.

**WORKING CONDITIONS:**

Must be able to be flexible with hours and on call 24 hours for any emergencies requiring attention. Will be required to receive and/or make calls at home or report to the site to assist in emergency situations.

Role requires computer work. Length of time can be controlled by the individual.

Must be able to lift up to 50 pounds routinely and handle loads over 100 lbs. with mechanical assists.

Position does require frequent exposure across the entire site to complete tasks related to evaluating the impact a situation may have on the environment. (Soil, Storm water drains and basin, community, process areas).

Must be able to perform duties outside of the site in various weather conditions up to 20% of the work time.

Exposure to chemicals – training provided to address risks.

Must be medically capable of wearing respiratory equipment.

Requires climbing ladders and stairs, some lifting, walking, sitting, bending, and stooping.

Travel will be required for training, travel to agency offices, etc.; less than 10%

A valid driver's license is required.

The above statements are intended to describe the general nature and level of work being performed by persons assigned to this classification. They are not intended to be construed as an exhaustive list of all responsibilities, duties and skills of personnel so classified.

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, protected veteran status, disability status, age, sexual orientation, gender identity and expression, marital status, citizenship, HIV/AIDS status or any other legally protected factor.

Qualified individuals will not be disadvantaged based on being unemployed.

**Disaster Programs Manager, Farmington, CT  
American Red Cross**

**Job Description**

The American Red Cross is a humanitarian organization, led by volunteers, that provides relief to victims of disaster and helps people prevent, prepare for, and respond to emergencies. It does this through services that are consistent with its Congressional Charter and the Fundamental Principles of the International Red Cross and Red Crescent Movement. The American Red Cross is the foremost volunteer emergency service organization in the United States with more than 590 chapters nationwide. We are currently seeking a Disaster Program Manager to work in our Milford, CT location.

The Disaster Response Manager operates as a part of the Disaster Management Cycle processes. It is responsible for local preparation, response and recovery management as well as management of government partnerships with assigned territory. Drivers for this work include the number of municipalities within its coverage area, the amount and complexity of program activity, presence of significant grant funding, geography, risk, population, frequency of events, and regional structure. responsible for the implementation of disaster preparedness, response, and recovery programs in the local area. Ensures the development of Disaster Leadership Volunteers in each of the program support functional areas of the disaster cycle in order to meet the needs of the territory, region, state and division.

The Disaster Program Manager performs these functions according to the guidance provided by the Regional Disaster and Program Officer; team leadership is provided by the RDPO. This position reports directly to the Senior DPO or the RDPO; and may have a dotted line to Community Exec (s) in the territory they cover. This position may have dotted line supervision to program support functions within the Region and/or may also serve as a program support functional lead within the Region. This position works closely with, is supported by and receives technical guidance from program support functions at the regional level.

Specific responsibilities: Will focus on volunteer recruitment and engagement.

#### Responsibilities

Act in a facilitative leader role across the disaster cycle: the Red Cross will align with government and work to enable the entire community to participate in all phases of the disaster cycle by shifting from being not only a provider of direct services but also a facilitative leader.

Within scope of position, represents the entire disaster cycle of preparedness, response and recovery.

Hires, trains, coaches, counsels and evaluates performance of direct reports and volunteers.

Ensures that American Red Cross services are available to diverse communities. Mobilizes the local community to prepare for, respond to and recover from emergencies. Meets the needs and expectations of clients and stakeholders. Develops human and material resources (volunteers, partners, community agencies, shelter and vendor agreements etc) to ensure the full cycle of disaster services is delivered.

Manages local responses by the deployment volunteers on a daily basis in a rapid and accessible manner. Serves during times of disaster as the operational leadership for the territory/local level; Participates in a leadership role on larger operations regionally, division or nationwide.

Leads and manages a primarily volunteer team responsible for the implementation of disaster preparedness, response, and recovery programs in the local area. Ensures the development of Disaster Leadership Volunteers in each of the program support functional areas of the disaster cycle in order to meet the needs of the territory, region, state and division.

Program delivery: Accountable for the implementation of the disaster services program in a territory in alignment with established metrics.

In conjunction with program support functions in a region participates in local planning, exercises and training, including exercises called by local partners (VOADs, EMAs and LEPCs).

Serves as the Red Cross thought leader on a local level with government and other agencies and organizations involved in disaster. Ensures interface with community leaders, corporations, businesses and government agencies.

#### Qualifications

Education: Bachelor's degree or equivalent combination of education and experience.

Experience: Minimum of 3-5 years experience with social services or service/program delivery, and providing leadership to a department, program or service. Demonstrated experience in coordinating staff and volunteer activities. Ability to interpret program trends, results, and related data to formulate recommendations. Ability to manage multiple priorities with strong skills in planning and problem-solving. Ability to relate well and effectively with diverse groups and individuals.

Management Experience: Minimum of 1-3 years staff management experience.

Skills and Abilities: Excellent interpersonal, verbal and written communication skills.

Develops project plans & budgets. Demonstrates in-depth knowledge of program or service. Demonstrated ability in creating presentations and developing training modules. Develops strategies to achieve organizational goals. Demonstrated analytical and decision-making skills to develop creative processes for continuous program or service improvements. Demonstrated analytical and decision-making skills to develop creative processes for continuous program or service improvements. Proven track record of collaboration, facilitation, problem solving, marketing, leadership, and partnership management. Additionally, this position requires ability for planning, public speaking, project management and process improvement. Individual must be customer oriented, organized, and able to operate with an orientation toward solutions with an external focus, and team orientation.

Other: Intermediate level proficiency with MS Office software, including Word, Excel, PowerPoint and Outlook. Familiarity with federal, state, and local employment laws.

Must be able to perform all assigned responsibilities under “grey sky” requirements. This position is also responsible for ensuring that all American Red Cross finance policies and procedures are followed as related to the scope of work activity.

Travel: May involve travel.

Apply now! Joining our team will provide you with the opportunity to make a difference every day.

The American Red Cross is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to sex, gender identity, sexual orientation, race, color, religion, national origin, disability, protected veteran status, age, or any other characteristic protected by law.

The American Red Cross is a diverse nonprofit organization offering its employee’s professional development and growth opportunities, a competitive salary, comprehensive benefits, and a collaborative team spirit environment. To be considered for this position, please visit [www.redcross.org/jobs](http://www.redcross.org/jobs) to apply.

As one of the nation’s premier humanitarian organizations, the American Red Cross is dedicated to helping people in need throughout the United States and, in association with other Red Cross networks, throughout the world. We depend on the many generous contributions of time, blood, and money from the American public to support our lifesaving services and programs.

At the American Red Cross, you will enjoy a collaborative work culture committed to the diversity of our people, programs, and services. We need people who want to contribute their individual talents to help their neighbors locally, across the country, and around the world. Whether you're a recent graduate or an experienced professional, if you share our passion for helping people, join us in for a rewarding and challenging career opportunity that support our mission.

**Manager - Construction Safety, Hartford, CT Area  
Metro-North Railroad**

Job description

Compensation: Grade: F Salary Range: Min: \$73,518/ Mid: \$82,700

MTA Metro-North Railroad is a dynamic organization, operating out of the jewel of New York City, Grand Central Terminal. We provide service to over 82 million customers annually, traveling in and out of New York and Connecticut. A subsidiary of the Metropolitan Transportation Authority, Metro-North Railroad is the busiest commuter railroad in the nation. MTA Metro-North Railroad strives to provide a safe commute, great service to its customers and rewarding opportunities to its employees.

**POSITION OBJECTIVE**

To assist with the Metro-North Railroad's Capital safety program and outside contractor's efforts regarding construction safety. Work with Assistant Director of Capital Program –Safety, construction managers and senior staff to increase safety awareness and compliance initiatives.

**RESPONSIBILITIES**

Attend project progress/coordination meetings and project safety meetings; assist with review of project safety related submittals.

Assist capital engineering staff with safety field inspection/audits of construction projects for compliance with Metro-North's safety program. Follow-up with safety issues and corrective actions. May require working during the day or night, and be available 24/7 as required.

Maintain Data base for tracking of incidents and injuries and similar safety related data for MNR's Capital Safety Program. Help analyze data and participant on 'Safety Focus Days 'and other events.

Work with the Training Department to coordinate internal safety training for capital engineering staff, i.e. Roadway Worker, OSHA, Hazmat, OSHA 30, Four (4) Hour Scaffold Training.

#### REQUIRED QUALIFICATIONS

Familiarity with state and federal codes and regulations pertaining to OSHA and safety regulations.

Knowledgeable of construction management procedures.

Ability to observe operations and evaluate practices to determine safety issues.

Ability to organize material and interact with outside consultants and internal departments.

Excellent verbal, written and communication skills.

Knowledge of Microsoft Office Suite and/or comparable PC applications.

Available to respond to emergencies twenty-four (24) hours a day, seven (7) days a week as required.

Must possess a valid driver's license required.

#### PREFERRED QUALIFICATIONS

Knowledgeable of railroad infrastructure, safety practices, operations and governing regulations.

Experience and knowledge of railroad work.

Familiarity with railroad and transportation operations.

#### REQUIRED EDUCATION/EXPERIENCE

Bachelor's Degree in Safety and/or Public Health field to include Business, Science, Construction and/or other related field.

Minimum of five (5) years of experience with Safety and/or Public Health related projects, practices, principles involving and/or related to construction, engineering and/or work related to regulations and compliance.

Minimum of three (3) years of progressively more experience working on and oversight of similar types of projects with administrative safety functions and field experience.

Minimum of thirty (30) hours OSHA safety training or the ability to obtain the thirty (30) hours OSHA training within one (1) year of hire/placement.

#### OTHER INFORMATION

This is a safety sensitive position and subject to toxicological testing.

As an employee of Metro-North Railroad you may be required to complete a New York State financial disclosure statement, if you earn more than \$95,534.00 or if you hold a position designated as a policy maker.

#### SELECTION CRITERIA

To be selected for a position, an applicant must: (1) meet the minimum requirements in the job posting, (2) pass a written examination (if applicable), (3) satisfy a background investigation (which includes credit, if applicable), and (4) pass an oral interview, during which the interviewers will further evaluate the applicant's qualifications for the position. Because the selection process is competitive, not all qualified applicants are granted an interview. Metro-North may also require the applicant to undergo a physical ability test, and, if the Company extends a conditional offer, may require him or her to undergo a medical examination, which may include toxicological testing.

For applicants who are current employees, you must be in active service and have worked in your present position for at least one (1) year to be eligible to apply for a posted position, and have completed the agreed upon formal training commitment, plus on-the-job training, if applicable (for example: Signal Trainee, Foreman-In-Training, etc.) in order to be eligible to transfer. If you are transferred, you may be required to forfeit your seniority in your present occupation. In addition, Metro-North employees are subjected to an internal investigation, which includes an evaluation of their safety and discipline records and their performance assessments.

As an employee of Metro-North Railroad you may be required to complete a New York State financial disclosure statement, if you earn more than \$91,821.00 or if you hold a position designated as a policy maker.

We offer a competitive salary and a comprehensive benefits package.
