**Safety, Health & Environmental Specialist, Clinton, MA  
Phillips-Medisize**

Job Description

Phillips-Medisize, LLC is seeking Safety, Health & Environmental Specialist to administer the facility safety, security, health, environmental, and energy programs resulting in a safe and healthy working environment for employees, and to ensure compliance with applicable government regulations.

Essential Functions Include

Implementation of corporate safety, security and environmental programs and required written documentation to support these programs

Oversees the safety function for the assigned facility and partners with onsite management and other resources to ensure local program ownership and accountability.

Oversee the Site(s) Security policy and procedures and act as lead in communicating policy and practices, facilitating training and in response to security situations.

Support, implement and maintain the Environmental Management System (EMS) with formal corrective actions to ensure compliance with all applicable laws and regulations as well as company policies and procedures

Complete environmental permits, reports, forms and surveys as required by regulation and/or company policy and procedures, and submit them on a timely basis and in a professional manner

Assures the appropriate, effective, and timely facilitation of all required safety and environmental training programs for the facility

Assures compliance with various governmental record-keeping requirements, as well as, company metrics, and effectively communicates results to corporate safety and environmental management in addition to Plant Management as needed

Serve as the sites' primary interface with government agencies for the purpose of understanding the regulations and to ensure compliance

Conduct safety, health & environmental compliance self-audits, support external audits and hold an annual review of the safety, health & environmental management system with the management team

Position Qualifications

Required Qualifications Skills and Abilities:

B.S. or B.A. degree or the equivalent experience in fields of safety, health or environmental sciences

Five (5) years related experience in the field of safety, health or environment with manufacturing

Ability to demonstrate effective leadership, organize, solve problems and educate others

Ability to utilize appropriate judgment and discretion as they relate to responsibilities.  
Ability to plan and organize work to effectively perform assigned tasks in a timely manner

Ability to engage in cooperative and responsible behavior, which affects the operation of the facility and the company in positive manner

Ability to achieve Associated Safety Professional or Certified Safety Professional certification

This position does not qualify for VISA sponsorship

**Director of Environmental, Health and Safety, Milford, MA  
Nitto Denko Avecia Inc.**

Job description

The position is responsible for the strategic planning and implementation of EHS systems for all Nitto Avecia sites. This position also works directly with the appropriate Nitto business units to translate corporate directives into regionally and locally compliant EHS systems. The Director of EHS is responsible for establishing annual EHS

objectives to support the Company's business objectives in a compliant manner working directly with the SVP of Operations and senior team.

**Key Responsibilities:**

- Strategic review and support for EHS systems and improvements at all Nitto Avecia sites.
- Provide the plans and resources required to support ongoing and new EHS objectives based on the Company's business objectives.
- Manage EHS staff through direct or indirect lines of reporting (as assigned) including setting expectations and providing performance feedback.
- Ensure compliance with all federal, state, and local EHS regulations such as, but not limited to OSHA, TURA, MA/OH/CA -DEP, etc.
- Provide resources and support for relevant site training.
- Represent Nitto Avecia in external EHS interactions with regulatory officials, local officials, and community programs.
- Provide periodic updates and improvement recommendations regarding EHS system compliance status by establishing and analyzing key performance metrics.
- Participate in general operations management as a senior member of the Operations management team.

**Job Knowledge:**

- Minimum of a BS in an EHS related study; MS in a similar technical field preferred.
- 10+ years in EHS management experience in a chemical or pharmaceutical manufacturing operation. A minimum of 3 years of that experience must be at a senior manager level or above.
- Previous experience with managing multiple direct reports a must.
- Previous experience with global organizations and multiple sites highly preferred.
- Excellent verbal and written communication skills a must.
- Proven abilities to work with and influence in varied cultural environments.
- Equal Employer Opportunity

**VP Global EHS, Billerica, MA**  
**Entegris**

Why work at Entegris?

Lead. Inspire. Innovate. Define Your Future.

Not everyone who works for a global company shares the same background, experiences and perspectives. We leverage the differences of our employees to bring new ideas to the table. Every employee throughout the company is encouraged to share input on projects and initiatives. Our decision making process is truly a collaborative effort as we realize there are leaders at every level of the organization. We put our values at the core of how we operate as an organization — not just when it's convenient, but in a lasting and meaningful way. We want the time and energy you spend here to have a positive impact on your life inside and outside of the office.

Entegris is a values-driven culture and our employees rally around our core PACE values:

- P eople
- A ccountability
- C reativity
- E xcellence

**The Role**

Entegris is seeking a VP, Global EHS for our Billerica, MA facility.

In this role you will lead and champion the global Environmental Health and Safety (EHS) function in developing and implementing processes and programs building a strong EHS culture to meet the environmental sustainment requirements of our highly demanding customers.

In this role you will

Create and execute a roadmap for a semi-conductor industry recognized sustainment program encompassing all aspects of the environment, health, and safety.

Drive environmental sustainability requirements to our supply chain in integration with our customers' efforts.

Evaluate current staff, structure, budget, systems, and processes to achieve reductions in RIR levels from current 1.8 levels down to 1.0.

Work collaboratively with divisional leaders and members of the business with the ability to demonstrate value add to the organization, our customers, and our supply base.

Provide integrated solutions leveraging technology and reducing process variance.

Act as a change agent committed to continuous improvement.

Traits we believe make a strong candidate

Bachelor's Degree in Engineering, Master's Degree preferred.

Experience in Environmental Sustainability – specifically with Chemicals and gas.

Knowledge of all US Environmental, Health and Safety regulations and requirements.

Previous management of multi-site/facility responsibility (ideally US and international).

Your success will be measured by

Becoming a recognized and accepted member of the senior staff seen as adding value.

Working collaboratively across businesses, functions, and regions to establish an effective safety and environmentally conscious culture.

Establishing and publishing an EHS scorecard highlighting and driving organizational behavior in support of environmental sustainability programs.

What We Offer

Our total rewards package goes above and beyond just a paycheck. Whether you're looking to build your career, improve your health, or protect your wealth, we offer generous benefits to help you achieve your goals.

Very Competitive total compensation plans.

A 401(K) plan to help you plan for your future with an impressive employer match that's all yours- no vesting!

Great health, dental and vision insurance packages to fit your needs to ensure you're happy and healthy.

A progressive PTO policy that empowers our employees to take the time they need to recharge!

At Entegris we are committed to providing equal opportunity to all employees and applicants. Our policy is to recruit, hire, train, and reward employees for their individual abilities, achievements and experience without regard to race, color, religion, sexual orientation, age, national origin, disability, marital or military status.
