EHS Specialist, Windsor, CT
Amazon

Amazon Fulfillment is seeking a full-time EHS Specialist (EHSS) to serve as a designated safety representative for their assigned fulfillment center (FC), coordinating and implementing all areas of the Amazon Global Safety Program as directed by the safety leadership. The EHSS promotes a positive safety culture while complying with Amazon safety standards and maintaining a safe work environment. This includes conducting trainings and coaching associates on observed work habits.

The EHSS is required to maintain accurate daily, weekly, and monthly metrics to report to onsite management teams and corporate based reporting systems. The EHSS supports management’s efforts to ensure compliance with all corporate Safety Program expectations and applicable federal & state laws. The EHSS also conducts risk assessments related to jobs performed (Job Hazard Analysis) and new equipment introductions. In addition, the EHSS is responsible for recommending appropriate risk mitigation measures to management, including ergonomics.

Relocation assistance is not provided

EHS Specialist Responsibilities

- Identify and inform management of compliance issues, safety risks, and improvement opportunities through the conduct of daily, weekly, and monthly audits
- Facilitate incident investigation process
- Maintain required paperwork to comply with Amazon and OSHA regulations
- Enter Safety Incident Information in internal database in a timely manner
- Perform safety observations & audits
- Train and assist others (Area Managers, safety team members, etc.) to complete their safety responsibilities (Audits, Follow Safety Rules, etc.)
- Perform specific safety training as required by the Safety Manager
- May have additional responsibility for fire prevention, hazardous waste management, or other safety related activities depending on the business unit and location
- Participate in process improvement activities and manage actions to completion

- Essential Skills, Knowledge and Experience:
- Ability to communicate health and safety needs to all levels of the organization
- Calm demeanor in emergency situations

Basic Qualifications

- Minimum of 1 years in an Environmental Health & Safety (EHS) related field or bachelor’s degree in related field
- Knowledge of OSHA regulations specifically 29 CFR 191
- Experience using Microsoft Word and Excel in a professional capacity
- Experience maintaining confidentiality in matters involving security and/or personnel issues in the work place
- Available to work flexible shifts including days, nights and/or weekends

Preferred Qualifications

- Bachelor's degree or higher, preferably in a safety related field
- Strong communication, teamwork, analysis, judgment, and customer focus skills
- Experience leading and managing a team Ability to analyze accident data, new processes, and machinery for potential safety concerns and conduct job hazard and job safety analyses
- Experienced in emergency response and currently holds First aid and CPR certificates Experience in Worker’s Compensation case management
- Passion for safety

**Environmental Health & Safety Manager, Agawam, MA
SUEZ in North America Company**

We are at the dawn of the resource revolution. In a world facing high demographic growth, runaway urbanization and the shortage of natural resources, securing, optimizing and renewing resources is essential to our future. SUEZ (Paris: SEV, Brussels:

SEVB) supplies drinking water to 92 million people, delivers wastewater treatment services to 65 million, recovers 16 million tons of waste each year and produces 7 terawatt hours of local and renewable energy. With 82,500 employees, SUEZ, which is present on all five continents, is a key player in the sustainable management of resources. SUEZ generated total revenues of \$16.5 billion in 2016.

The position will be responsible for developing, implementing and managing environment, health and safety, and industrial risk programs in the New England Region - West which will allow management to monitor, verify, and strengthen compliance with safety and environmental regulations. Under limited direction, evaluate, plan, organize, coordinate and implement the environmental compliance, health and safety programs for the assigned Region; take action to ensure compliance with federal and state safety, health and environmental regulations and requirements; advise managers on safe work methods and practices and the elimination of hazardous conditions and environmental hazards; investigates accidents, near misses, and chemical release and environmental compliance incidents, and manage the necessary reporting to ensure proper reporting both internally and to external regulatory agencies. Interface with corporate EHS team to implement corporate initiatives at the region and project level.

Serve as the Regional contact for the Environmental Compliance Assurance Program (ECAP), Health and Safety Program, Emergency Response Plan and other activities.

The role will require field presence including the oversight, operational support and coordination of all EHS programs, working with corporate team to improve the effectiveness of our EHS activities and provide training to develop and strengthen all staffs knowledge and field execution of safe work and environmental practices. It will also carry responsibility to conduct investigations and develop / implement remedial programs, where necessary.

Required Skills

- Strong organizational, oral, written and interpersonal skills;
- Strong writing, coaching, and teaching skills;
- Ability to balance changing and potentially conflicting priorities.
- Ability to self-organize & prioritize and drive own work schedule.
- Ability to interact with all levels within the Region and Division;
- Proficient knowledge of MicroSoft Office including Excel, Word, Outlook and PowerPoint;
- Maintain specialized knowledge of safety and environmental regulations and industry consensus safety and environmental guidelines; and
- Willingness and ability to work in the field and with field staff evaluating, coaching and supporting safety and environmental compliance extensively (70%).
- Willingness and ability to travel extensively (50-75%);
- Willingness to be on call (24/7) to respond to & assist with injury and/or environmental emergencies;
- Willingness to work extended work schedules (as needed) to accomplish Region's needs and objectives.

Required Experience

- Bachelor of Science Degree in Safety, environmental engineering, or equivalent
- Certified Safety Engineer (CSP), Certified Industrial Hygienist (CIH) or the ability and willingness to obtain these certification desired
- 5-7 years of related experience in EH&S compliance.
- Work experience in water and wastewater industry, laboratory or other utility industry
