Risk Engineering Industrial Hygiene Consultant - Northeast Region
The Hartford
Multiple Locations follow link for details.

You are a driven and motivated problem solver ready to pursue meaningful work. You strive to make an impact every day & not only at work, but in your personal life and community too. If that sounds like you, then you've landed in the right place.

Our Risk Engineering Organization is currently seeking an Industrial Hygiene Consultant to support the New England and the Northeastern Regions. This is a full-time fully remote work arrangement with up to 50% travel expected.

This role is responsible for conducting Industrial Hygiene workplace evaluations for policy holders as part of a comprehensive Risk Engineering service plan with targeted exposure evaluation and /or exposure reduction activities. Identify and analyze exposures and develop engineering solutions to mitigate risk through partnership with the policyholder.

The posted salary range reflects our ability to hire at different levels depending on background and experience.

Responsibilities:

Conduct onsite and/or virtual exposure assessments to identify potential occupational health exposures and develop an appropriate industrial hygiene air/noise monitoring strategy.

Conduct onsite air/noise monitoring survey at customer locations making recommendations as appropriate.

Develop and deliver meaningful service to customers with engineering solutions to reduce or eliminate exposures.

Provide Virtual IH Technical Consultation to customers through Microsoft Teams meetings.

Develop effective relationships with National Account Managers, field Risk Engineering Consultants (REC, Claims and Brokers to develop a valuable Industrial Hygiene service plan for customers.

Collaborate continually with the RE IH Laboratory to assist customers with self-sampling and interpretation of laboratory analytical reports.

Develop and/or enhance client expertise and knowledge related to Industrial Hygiene through virtual and/or onsite basic industrial hygiene skills training.

Create Industrial Hygiene Technical Reports in a timely manner for the policyholders and internal business partners

Clearly communicate a summary of the consultation provided, including reasonable, appropriate recommendations.

Achieve monthly production goals including number of visits and hours.

Provide IH consultation, coaching and mentorship to internal business partners including, regional Risk Engineering (RE) field consultants, National Account managers, Underwriters and Claims.

Qualifications:

Bachelor of Science (B.S.) or Bachelor of Arts (B.A.) degree from a four-year college or university and 3+ years of Industrial Hygiene consultation in either insurance loss prevention, Industrial Hygiene consulting or general industry is required, with an academic focus on Occupational Safety and Health or Public Health.

Master of Science (M.S.) or Master of Arts (M.A.) in Public Health, Industrial Hygiene or Occupational Health and Safety preferred with at least 5+ years of experience in industrial hygiene or occupational health related field highly preferred

Willingness to travel 50% of the time; both local and overnight required. Ability to travel over for work via air, rail, or automobile.

High degree of technical skills with strong consultative skills and ability to deliver results efficiently and effectively in a timely manner.

Must have and maintain a Certified Industrial Hygiene (CIH) designation in Comprehensive Practice and/or be capable of sitting for the CIH exam within 2-3 years of hire as qualified to sit for the exam based on education and experience.

Ability to operate a motor vehicle, climb stairs, stand and walk-through customer buildings and facilities to a significant degree. Stooping and bending is also required for this job.

Lifting 40 lbs. maximum with some lifting and/or carrying of objects weighing up to 20 lbs.

Ability to work in outside uncontrolled environmental conditions and ability to work safely in a wide variety of customer environments that may contain physical conditions, such as: exposure to extreme heat or cold, chemicals, electrical current and moving mechanical parts.

Compensation

The listed annualized base pay range is primarily based on analysis of similar positions in the external market. Actual base pay could vary and may be above or below the listed range based on factors including but not limited to performance, proficiency and demonstration of competencies required for the role. The base pay is just one component of The Hartford's total compensation package for employees. Other rewards may include short-term or annual bonuses, long-term incentives, and on-the-spot recognition. The annualized base pay range for this role is:

\$71,400 - \$158,520

Equal Opportunity Employer/Females/Minorities/Veterans/Disability/Sexual Orientation/Gender Identity or Expression/Religion/Age

Environmental Protection Seasonal Patrol Officer CT DEEP, various locations

Recruitment #221028-3491VR-001

ABOUT US

The State of Connecticut, Department of Energy and Environmental Protection (DEEP), Bureau of Outdoor Recreation, Environmental Conservation Police Division, has multiple opportunities for Seasonal Patrol Officers (EnCon Rangers) throughout the State Park system. The mission of the State Environmental Conservation Police is to provide natural resource protection and public safety through education, outreach and enforcement.

ROLE HIGHLIGHTS

Seasonal Patrol Officers and EnCon Rangers assist the State Environmental Conservation Police through primary park visitor contact, interaction with the public to assist them in the safe and orderly enjoyment of department resources and activities and enforcement of laws and regulations.

Selected candidates will perform the EnCon Ranger duties primarily at State Parks providing for security and enforcement of laws and regulations for State Parks.

The locations are primarily at State Parks, Forests, Waterways and recreation areas.

These positions are up to 40 hours per week with both first and second shift available. There are no benefits provided.

The position length is from March 1, 2023 through December 1, 2023.

CONTACT INFORMATION

For technical support regarding the filing of your application in JobAps, please contact Benjamin Beaudry at Benjamin.Beaudry@ct.gov.

Any inquiries regarding the status of your application for these positions must be made directly to deep.enconpolice@ct.gov or Jade Sharkany at Jade.Sharkany@ct.gov.

SELECTION PLAN

This position is non-competitive and Open to the Public.

IMPORTANT SELECTIONS INFORMATION

Selected candidates must be fluent in English, be at least 21 years old at the time of employment and have a valid driver's license.

Selected candidates must possess and maintain adequate physical flexibility, strength and stamina to perform the duties (including work outside in inclement weather and work outside for extended periods), and work well with other staff and members of the public.

The immediate vacancy is listed above, however, applications to this recruitment may be used for future vacancies in this job class.

Selected candidates will also have either been:

Employed as a EnCon Ranger by DEEP's EnCon Police in 2021, 2022;

Currently employed as a Connecticut certified police officer with a current POST certification;

Retired in good standing within the last 3 years from a Connecticut police agency without any unresolved or pending disciplinary action as a sworn officer with a valid POST certification;

Successful in completion of one hundred and twenty (120) hours of Seasonal Ranger, DEEP provided training course prior to May 30th, 2023.

TO APPLY

Complete a Master Application and directly apply to this recruitment. In order to comply with Public Act 21-69, the State of Connecticut is no longer asking for resumes during the initial application process. Please ensure that your application is complete. You will be unable to make revisions once you officially submit your application to the State of Connecticut.

WHAT TO EXPECT AFTER YOU APPLY

The recruitment process may take several months. Due to volume, we are unable to give individual application updates. We encourage applicants to review their application status via their Personal Status Board on JobAps.

Please regularly check your email for notifications (be sure to check your SPAM and/or Junk folders, as emails could end up there in error).
